CAREER OBJECTIVE

Results-driven QA Tester with 3.7 years of experience in Manual and Automation Testing across enterprise web applications. Strong expertise in Selenium WebDriver, Playwright, Java, TestNG, Cucumber BDD, API testing, and SQL validation. Proven track record of reducing production defects by 30% and improving regression efficiency by 40% through automation frameworks. Experienced in Agile (Scrum) environments with full SDLC and STLC involvement.

PROFESSIONAL SUMMARY

- Experienced QA Engineer with **3.7** years of experience in Software Testing including **Manual** and **Automation** testing across enterprise applications.
- Proficient in implementing web automation frameworks using **Selenium WebDriver** and **Playwright** integrated with **Java** for scalable application testing.
- Experience in designed Functional Framework **TestNG** with **Data Provider**, **Grouping** Concepts in **Page Object Model (POM)** Design Pattern.
- Implemented **BDD framework using Cucumber** by creating feature files, step definitions, and glue code for automated test execution.
- Proficient in identifying and interacting with web elements using advanced locator strategies such as **ID, Name, Tag Name,** and **XPath.**
- Strong experience in **Software Testing Life Cycle (STLC)** within **Agile (Scrum)** environments, applying structured testing methodologies.
- Experience in Build Management Tool – **Maven**, including effective dependency management using **pom.xml** for organizing libraries and plugins.
- Proficient in manual API testing using **Postman for REST API** validation, including request/response handling, headers, and assertions.
- Strong knowledge of SQL queries for backend data validation using **SQL Server Management Studio.**
- Proficient experience **in Test Case Design, Test Execution, Bug tracking and Reporting** life cycle.
- Thoroughly involved in different types of Testing's like **Smoke, GUI, Functional Testing, System Integration Testing, Re Testing, Regression Testing, and Browser Compatibility Testing**.
- Extensive experience in product-based testing of enterprise web applications (SRP modules) and client-server systems with end-to-end business workflow validation.

TECHNICAL SKILLS

- **Language:** Core Java
- **Automation Tools**: Selenium WebDriver, Playwright
- **API Testing Tools**: Postman (Manual)
- **Database/SQL**: SQL Server Management Studio (SSMS)
- **Frameworks**: TestNG, POM, Data-Driven, Cucumber BDD, POM
- **Version Control**: Git, JIRA (Bug Tracking)
- **CI/CD - Build Tools**: Jenkins, Maven
- **Methodologies**: Agile (Scrum), SDLC, STLC
- **Technologies:** Manual Testing, Automation Testing, Functional Testing, Regression Testing, API

WORK EXPERIENCE

Quality Executive | Ramco Systems Ltd | Jan 2024 -Present **Chennai**

- **Project: MPG (SRP Staffing Solutions Module)**
- **Tools: Selenium (Eclipse), Playwright, Jira, Git, Maven, Jenkins**
  Role and Responsibilities:
  - Collaborated with domain experts and developers to design and execute comprehensive test strategies, **reducing defect by 50 %** and improving overall product quality.
  - Conducted detailed functional and **regression testing**, application stability and reducing production issues by **30%.**
  - Managed and tracked bugs efficiently using **RTrack (JIRA)**, **Defect Life cycle Management** reducing system errors by **30%.**
  - Designed and maintained automation scripts using **BDD-Cucumber Framework** with **Selenium (Java)** to enhance product quality and efficiency.
  - Involved in daily Agile ceremonies and collaborated with developers and onsite teams to resolve open issues.
  - Used **Postman** for **manual API testing**, validating REST endpoints, status codes, headers, and responses
  - Performed backend data validation using **SQL** queries via **SQL Server Management Studio (SSMS)**.
  - Initiated automation of selected test cases using **Playwright** for modern web application testing and cross-browser support.

Quality Analyst Trainee | Ramco Systems Ltd | Aug 2022- Dec 2023 **Chennai**

- **Project: TATA Elxsi (Project Module)**
- **Tools: Selenium (Eclipse), TestNG, POM, Git**
  Role and Responsibilities:
  - Dedicated to honing skills in software testing within an **Agile development environment.**
  - Assisted in **manual testing** of software functionality, identifying and tracking **30% of critical bugs** early in the lifecycle.
  - Contributed to **Test case design** for key modules, **Test Strategy & Planning** and improving test coverage and team efficiency by **25%.**
  - Created and maintained **Functional, Smoke, and Regression** test scripts using **Selenium WebDriver** with **TestNG Framework**.
  - Utilized **Jenkins** for scheduled nightly test execution, supporting **CI/CD Pipeline Integration** practices.

CERTIFICATION

- **Ramco Functional Consultant – Certified** by Ramco Systems
- **L2 Certification – Completed** from Ramco Systems.
- **Best Employee Award** for QA contributions across multiple project teams – *Ramco Systems.*

ACADEMIC PROFILE

- An Engineering Graduate in Mechanical Engineering at Sri Sairam Engineering College,Chennai-77%

DECLARATION

I hereby declare that all the information furnished above are true to the best of my knowledge.
